## FINANCIAL REVIEW

### Revenue, Cost of Sales and Gross Profit

The revenue of the Group for 2023 amounted to RMB33,493 million, representing a decrease of approximately RMB6,513 million as compared with last year, which was mainly due to the decrease in revenue from construction contracting segment of RMB6,193 million.

In particular:

Total	<u>329.42</u>	<u>312.44</u>	5.2		<u>391.35</u>	<u>376.55</u>	3.8	

The revenue from construction contracting segment for 2023 decreased by RMB6,193 million, which was mainly due to (i) the trend of the Group to undertake projects with higher quality and guaranteed payment collection from party A during the year, leading to a decrease in the newly undertaken projects compared with previous years; and (ii) the constant completion of the Group's existing projects in previous years in 2023, resulting in a decrease in revenue.

Detail analysis is as follows:

- (1) Building construction business, being the largest revenue contributor to construction contracting business, completed certain large-scale projects such as Major Pandemic Treatment Base Project of the Affiliated Hospital of Hebei University, General Contracting for Section II of Xi'an Jinlin Tianzuanyuan Construction Project during the Reporting Period, which resulted in a decrease in revenue from building construction business of RMB5,713 million as compared to last year. During the Reporting Period, the impact of the pandemic was weakened, which resulted in decrease in labor costs and fixed costs, and thus the gross profit rate of the building construction business was increased as compared to last year.

- (2) The revenue from infrastructure construction business decreased by RMB346 million as compared to last year. During the Reporting Period, certain large-scale infrastructure construction projects, such as PPP Project of Southern Section of Da'nan Highway (Jialiu Line) in Zhongshan City and National Highway G205 Yanshan County Round-town Section Renovation Project, were completed during the Reporting Period, resulting in lower revenue of the infrastructure business for the year as compared to last year.
- (3) The revenue from specialized and other construction business decreased by RMB134 million in 2023 as compared to last year. Such business mainly comprises other construction businesses such as electrical and mechanical installation and steel structures, which have shorter construction periods. During the Reporting Period, certain projects, such as Construction, Installation and Procurement Project for the Dry Coal Shed of Yudean Coal Terminal in Bohe New Port Zone of Maoming Port in Guangdong, were completed, and the Phase I of Huagou Operation Area in Gaoqing Port Area of Zibo Port was nearly completed, resulting in a slight decrease of 5% in revenue as compared with last year.
