📭 t 🎙 a a D p tA ta Awa

In the first half of 2024, the Compan achie ed remarkable res. Its in ario s aspects of technolog inno attion, incl. ding implementation of technolog research and de elopment projects, constr. ction and operation of technolog platform and application and licensing of intellect, all propert.

- 1. Pro incial science and rechnolog projects: 8 of o. r projects readmitted b the Hebei Pro incial Department of Ho. sing and Urban-R. ral De elopment as construction rechnolog projects, 15 of o. r projects readmitted as new rechnolog application demonstration projects, and 5 of o. r projects readmitted b Hebei Construction Ind. str. Association as rechnolog projects in 2024.
- 2. Enferprise le el science and fechnolog projects: in 2023, a einc rred research and de elopment e penses of RMB388 million for 359 enferprise le el science and fechnolog projects. In the first half of 2024, a initiated 213 enferprise le el research and de elopment projects and carried out research and de elopment acti it is in an orderl manner.
- 3. Technolog progress and and ards: one of our project received 2023 Hebei Science and Technolog Cooperation And ard (Professor Cheng Sh. iping of Tongji University), 28 of our projects received the Scientific and Technological Progress And ards for construction industry in Hebei Province in 2024, including 3 first-class and ards; 15 new technolog application demonstration projects, one green construction technolog demonstration project and 4 technolog research and de elopment plan projects passed the acceptance inspection by the Hebei Provincial Department of Housing and Urban-R. ral Development, and 10 achie ements are assessed to be at an advanced level in China.
- 4. Construction and operation of technolog platform: We each side approved as the postgrad ate workstation for the construction industry in Hebei Province, carried out platform construction and operation with increased efforts, completed the releast data reporting for national enterprise technolog center, so mmarized and so bmitted the performance each ation materials for the 2023 provincial technolog inno ation center of technolog inno ation center, and the assessment for admission and grad ation of the postdoctoral workstations were carried out in an order manner.
- 5. In ellect, all propert: De parented or ken technologies in a timel manner. As of the end of J. ne 2024, De obtained 70 no parents (incl. ding 4 in ention parents), and s. bmitted 32 parent applications.

₄a t dut ke

In the first half of 2024, ander the hard ork of all or cadres and employees, the Compan achie ed stead de elopment in all its be sinesses. First 1, most of the anits are operating smooth 1, with plans and measures in place to achie eithe annual economic targets. Second 1, the qualit and scale of the projects andertaken be the Group in the market has esteadily increased compared to the corresponding period of last ear.

In the coming period, the Gro. p as a hole will foc s on solid impro ing organizational construction and arious stem works, continuous impro ing its cash flow adeq act, so as to smooth the fide of erthe economic cale, and embark on a new journe towards stead and long-term de elopment.

First 1, the Gro. p ill continue to de elop e isting regional and industrial markets be encouraging competition among companies. Rel ing on the regional organizations ideal distributed across counties, districts, and cities in Hebei Pro ince and all pro inces and cities across the country, the Gro. p obtains constant market information and accumulates e er-changing market resources, this adhering to stringent market undertaking requirements to ensure that high-quality projects are undertaken.

Secondl, he Gro. p aill strongl ad ocale for inno ali e and entreprene rial organizations ho e plore new fields in he pstream and downstream ind. stries. The Compan enco. rages organizations at all le els and emplo ees ho le erage the broad platform of the Gro. p, take ad an age of go ernment preferential policies, gi e f. Il pla hot heir own intelligence, reso roes and e pertise ho carr out inno at ion and entreprene rship around the pstream and downstream ind. stries, as well as also provide contenience and policies, pport for organizations and individed als who are brate enough to break out of their comfort zones. In particular, the Gro. p f. Il supports our neglial perspections in le eraging their learning abilities and creation on the Compan is broad platform, through new perspections, knowledge, and methods to identificant market needs, sole we have point problems of customers, boldluse become inno at ors and take the lead in inno at ion.

Thirdl, it is important to maintain a constant foc s on safet and continuous improve the qualit of project deliver. We will continue to effect it implement safet production standardization and VIS image construction at the construction site, active to hid high-qualit projects at all levels, and strive for projects that satisf the basic conditions for excellence and applying for a lards. In particular, we ended our to cherish each opport in the apply for a lards of the Hebei province in order to enhance our capabilities and brand a lareness.

In the second half of the ear, the Compan vill continue to phold the vork principles of Impro ing Q alit and Efficience, and Achie ing Stabilit for S. stainable De elopment, with holehearted the focus on de elopment, and deli er e cellent performance to ser ethe societ, revariant or Shareholders and benefit or remplo ees!

The re en. e for the si months ended 30 J. ne 2024 amo. nted to RMB11,015 million, representing a decrease of approximatel RMB3,933 million as compared with the corresponding period of last ear, which was mainled to the decrease in segment re en. e from construction contracting of RMB3,894 million.

The re en e from construction contracting business for the simonths ended 30 June 2024 decreased be RMB3,894 million, which was mainled to the decrease in the new 1 undertaken projects of the Group as compared to the same period of last ear.

The change in re en e from constr. clion contracting segment is anal zed as follows:

- (1) For b. ilding constr. chion b. siness, being the largest re en. e contrib. For to constr. chion contracting b. siness, d. ring the Reporting Period, affected by the macro-economic sit. ation, the proper market remained in the doldr. ms, with a decrease in new projects and a slow down in constr. chion progress. As a res. It, re en. e from the b. ilding constr. chion b. siness decreased by RMB2,446 million as compared to the same period of last ear;
- The re en e from infrastr. cf. re constr. cf ion b. siness decreased b RMB1,010 million as compared for the same period of last ear, which was mainted to the slow down in the growth rate of infrastr. cf. re in estment and the decrease in new contract at e as compared to the same period of last ear;

(3) In the first half of 2024, the re en e from specialized and other construction be siness decreased by RMB438 million as compared to the same period of last ear. Such be siness maintained des mechanical and electrical installation and steel structure, which has a shorter construction period. The number of new projects of specialized and other construction be siness secured during the Reporting Period as lower than that of the first half of 2023, resulting in lower re en e as compared to the same period of last ear.

a D t ut E p

The selling and distribution e penses for Jan. ar fo J. ne 2024 amo. ned fo RMB0.97 million, representing a slight increase as compared to the same period of last ear.

G aa A tat Ep

In the first half of 2024, the Gro. p's general and administrative e penses amounted to RMB212 million, representing a decrease of RMB67.57 million as compared to the same period in 2023, which as mainly attributed to the decrease in employee benefits, we lefter and social instructions rance fees in the current period.

♦ a a D p tEp

The research and de elopment e penses of the Gro. p for the first half of 2024 amo. In edito RMB33.22 million, representing a decrease of RMB36.10 million as compared to the corresponding period of 2023. The research and de elopment e penses are maint the costs inc. rred for research of special projects or production process be the Gro. p, incl. ding the cost of materials. Filised and salar of senior engineers in olled in research and de elopment. The decrease in research and de elopment e penses as maint defer fewer research and de elopment projects defining the Reporting Period.

pa t \ C t \

Impairment losses of credit losses for Jan. ar fo J. ne 2024 amo. nted to RMB76.76 million, representing a decrease of RMB10.28 million as compared to the same period of 2023, which was maind due to the decrease in individual bad debt provision for c. stomers with significant risk of default in the c. rrent period based on the Gro. p's assessment on c. stomer's operating conditions and pa ment collection.

The re ersal of impairment losses on assets for Jan. ar fo J. ne 2024 amo. nted to RMB36.78 million, as compared to the re ersal of impairment losses on assets of RMB9.67 million inc. rred in the same period of 2023, which as mainled to the decrease in re en e in the c. rrent period, res. It ing in a decrease in

t t

The in estment losses for Jan ar to J. ne 2024 amo. need to RMB1.90 million, as compared to the in estment losses of RMB8.38 million for the same period of 2023, which was mainled to the decrease in long-term eq. it in estments loss ander the eq. it method as compared to the same period of last ear.

а Ер

The income has e penses for Jan. ar ho J. ne 2024 amo. nhed ho RMB35.09 million, representing a decrease of RMB10.69 million as compared to the same period of last ear, which as main determined as main determined in the current period, resulting in a decrease in income has e penses for the current period as compared to the pre-ious speriod.

t 🐠 t

Based on the abo e factors, net profit for the first half of 2024 as RMB121 million, representing an increase of approximatel RMB9.69 million as compared that he same period of last ear.

agu t, F a a u a Capta tutu

The Gro. p finances operations primaril through cash generated from operating activities and interest-bearing borrowings. As at 30 J. ne 2024 and 31 December 2023, the Gro. p had cash and cash eq. i alents of approximatel RMB4,840 million and approximatel RMB6,528 million, respectively. For the liquidity and capital structure of the finds of the Gro. p, please refer to the African Balios below.

Cu Fu

As af 30 J. ne 2024, the c. rrenc f. nds of the Gro. p are RMB6,143 million, representing a decrease of RMB1,546 million as compared it he had at the end of 2023, which as main d. e to the net cash o. I flow s res. It ed from operating act it is.

F a a 🐠

The Gro. p reg. larl monifors cash flow and cash balances. F. rhermore, if is dedicated to maintaining the optimal liq. idit le el req. ired for orking capital and keeping its b. siness and m. It ple growth strategies at a stable and health le el d. ring the Reporting Period. In the f. t. re, the Gro. p intends to finance operations through cash generated from operating act it it is and interest bearing borrowings.

-t Equt t t

As a 30 J. ne 2024, the long-term eq. if in estments dere RMB470 million, representing a decrease of RMB30.77 million as compared that the end of 2023, which as maind detailed the disposal of the long-term eq. if in estments in Rongcheng Co. nt Hengda Constr. ction In estment Co., Ltd. in the c. rrent period.

Aut waa 2 -t wa

As a 30 J. ne 2024, the net al. e of acco. Its recei able as RMB7,164 million, representing a decrease of RMB314 million as compared the that at the end of 2023, and the o erall change as insignificant.

The balance of long-ferm recei ables (incl. ding fee portion d. e lithin one ear) as RMB219 million, representing a decrease of RMB2.58 million as compared it is fee and of 2023, and fee o erall change as insignificant.

Cap ta E p tu

Capil al e pendil res in he first half of 2024 ere appro imatel RMB15 million, representing a decrease of RMB36 million as compared to the same period of 2023, which was mainted as mainted to no significant capil at e pendil res for procurement of fired assets and construction in progress during the Reporting Period.

Cap ta C t t

As at 30 J. ne 2024, the Gro. p did not ha e an material capital commitment.
